

WHY WE CELEBRATE WEEK OF THE YOUNG CHILD

Your child will astonish you in the early years from 0-to-5! This is a period of dramatic brain development and intense exploration, growth, and learning. What happens in early childhood will lay the foundation for your child's success in school and later life. The Week of the Young Child was established by the National Association for the Education of Young Children in 1971. It brings public attention to the needs of young children, their families, and the early childhood programs that contribute to their future success. Shasta County joins communities across the nation in celebrating young children and the enormous possibilities awaiting them. Enjoy family fun and learning adventures during this special week!
